1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Smithyman et al (6,047,497) in view of Blatchford (Australian patent 32801/95).

Smithyman is described in the prior Office actions. It would have been obvious to perform Smithyman et al's process in a batchwise manner, wherein the fumigant gas is removed from the fumigation chamber after the flow of fumigant is stopped, since it is well known to replace fumigant gas with a flushing gas in a fumigation chamber after flow of the fumigant gas is stopped, as evidenced by Blatchford (page 9, lines 14-21). Further, it is obvious to perform a batch process continuously or a continuous process (as in Smithyman et al) in a batchwise manner (In re Fong, 154 USPQ 25).

3. Applicant's arguments with respect to claims 1-20 submitted May 9, 2006 have been considered but are moot in view of the new ground(s) of rejection.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
